PROFESSIONAL EXPERIENCE

ONS Tech ONS Hospitality Group Senior Project Manager Promoted after three months Project Manager	Jun 2025 - Aug 2026 Sep 2025 - Aug 2026 Jun 2025 - Aug 2025
- Led cross-functional delivery across ONS's technology and financial division, translating hospitality operating requirements into backend financial workflows and integrated technology capabilities. - Managed development of in-house point-of-sale and inventory-management systems, defining requirements for transaction capture, purchasing, stock movement, reconciliation, and management reporting. - Directed requirements analysis, process mapping, testing, issue resolution, and stakeholder coordination across POS, inventory, financial reporting, and other internal technology initiatives.	
ABS Tech Dallas, TX Project Coordinator Promoted from Senior Business Systems Analyst	Feb 2024 - May 2025
- Led cross-functional design and delivery of an automated payroll platform spanning contractor billing, salaried pay, overtime, incentives, deductions, and compliance, reducing processing effort by 70%+. - Built SQL reporting and Tableau dashboards and translated business requirements into scalable workflows, improving leadership visibility into operating performance, risk, and investment decisions. - Directed AS-IS/TO-BE analysis, requirements prioritization, UAT, and release execution across engineering, finance, HR, compliance, and business stakeholders.	
Carelon Behavioral Health / Randstad USA Dallas, TX Senior Business Systems Analyst	Feb 2023 - Dec 2023
- Conducted financial and operating analysis identifying \$2M in cost-saving opportunities; streamlined executive reporting cycles by 20% and strengthened enterprise risk-management decision support. - Applied predictive and portfolio analytics to evaluate risk-adjusted performance, supporting initiatives that improved modeled ROI by 10%.	
Amazing Vitamins LLC Carlstadt, NJ Product Analyst	Jan 2022 - Jan 2023
Analyzed operating and healthcare datasets using Python and SAS, built KPI reporting, and led process improvements that reduced billing errors by 15% while improving management visibility.	
Equitas Small Finance Bank Chennai, India Strategic Manager	Mar 2020 - Mar 2021
- Developed branch and product growth strategy using market segmentation, contributing to a 20% increase in SME and retail lending portfolios and an 18% increase in customer acquisition. - Enhanced credit underwriting and risk-management processes, reducing non-performing assets by 12% while aligning growth initiatives with regulatory and financial-sustainability objectives.	

SELECTED FINANCE RESEARCH

Independent Research - Manuscripts Submitted for Publication | 2026

- Universal Ambition: Recasting SPD's Investment Banking Playbook for Scale and Risk Discipline** - Analyzed five years of performance, ECM/DCM and cross-border platforms, fee-income growth, and integrated risk governance.
- Silent Auctions at the Close: How Mandate Transparency and Hedging Opacity Distort End-of-Day Price Formation** - Examined dealer gamma hedging and leveraged-ETF rebalancing across 1.88M stock-day observations, including liquidity, reversals, and transaction costs.
- Volatility Pathways and the Regime Sensitivity of Equity Factors** - Studied U.S. equities from 1963-2023 to evaluate momentum, value, quality, and low-risk factor performance across volatility-path regimes.
- Financial Feasibility and Operational Value Realization of Cloud-Native ERP Implementation** - Evaluated ROI, implementation economics, and multidimensional operating benefits to support capital-allocation decisions.
